Essential Oils are the natural extracts of plants that have been used for thousands of years for health & well-being. The allure of essential oils often lies in the desire to connect the body and mind. Harmony in the body provides peace in the mind. This market has grown rapidly over the last few decades, and it is important to know how to use oils for therapeutic value, and know that not all oils are created equal. Come to class to sample and learn more about the many benefits that oils can provide, why quality matters, what to look for in an essential oil company, and how you can safely, easily and affordably incorporate them into your daily life!
