

God's Creation

Beatrice Flythe

God made man in His image
Because He was lonely and needed a friend.
He molded man so carefully
And man was just like Him in the end.
However, man wanted to be Him,
Know more than Him, and thus
Committed a great big sin.

The punishment for the sin was pain and strife.
A great difference from the original plan for man's life.
But in spite of all man had done
God gave the world His only son
Who hung, bled, and died on the cross
So our soul would not be eternally loss.
